[Entreskills Chapters](#)

As a teacher you may create your own sample business plan or view the business plans of any of your students. Select the business plan you would like to view from the list below.

My business plan

Business Plan Builder - Introduction

Welcome to the business plan builder. This program will help you construct a sample business plan. Your plan is divided into sections, each containing important information that you must enter. You will find that as you advance through the Entreskills program your answers to many of the questions in each chapter will be automatically added to your business plan.

You can change the information that you have entered at any time, either from here or from the relevant chapter. After changing any information, make sure you click on the "update" button at the bottom of the page. Please note: If you have this page open at the same time that you are editing your business plan from another page (such as a chapter/section page), the changes you make will not be visible here. If you click "update" here after changing your information from a different page you may lose some changes. Please do not edit your business plan from this page and from the chapters at the same time.

Each section below includes links to the chapter that addresses that part of the business plan. If you are unsure about any part of the plan you can click the appropriate chapter link for a refresher.

Some questions below are only included to help you develop your plan and will not be a part of the plan itself. Sections that will be included in your final business plan are highlighted.
